About us

We began with an interest in health and wanted our family and people close to us to be healthy both physically and mentally. We felt that access to quality medicine was the foundation for maintaining good health and curing illnesses, which led to the opening of **"Ton Rak Ya"** in 2012. Starting as a small business in the Chonburi province selling quality medicines and dietary supplements to our community. Since then, we have grown in the pharmaceutical and health industry with three branches in different areas of Chonburi with plans to expand in the future.

From past and present experience in this field we are noticing that people all over the world are becoming more conscious of good health using natural methods. his has increased the market for natural medicines and health care. With this increase in interest combined with the vision of the business,
Ton Rak Ya Co., Ltd was established in 2017 giving birth to the **AMPii** brand.

AMPii is managed by Ton Rak Ya Company Limited. Combining Thai knowledge accumulated over many generations with modern technology, we are bringing all the benefits of Thai herbs and medicine to consumers worldwide. This allows us to bring our products to the international market for everyone around the world tha loves their health, letting them truly experience the charm and benefits of Thai herbs.
Ton Rak Ya Co., Ltd is a Thai company specializing in herbal products that exports various herbal products and promises to be committed to quality product development of a variety of Thai herbal products and services. We also conduct business as a socially and environmentally responsible company.

Brand Story

Thailand is a country in a hot climate with a variety of plants and medicinal herbs. Each one having different characteristics and qualities linked for a long time with the Thai lifestyle. This inspired the brand AMPii to be created.Under the **TONRAKYA Co.,Ltd**, we were able to mix these ancient qualities with new technologies. This brought the highest qualities of the Thai herbs to use with consumer, raising Thai herbs to a global level and entering the world market. Allowing everyone worldwide that loves their health to take advantage of these Thai herbal medicines.

The AMPi brand created their firstproduct using high quality herb **"Amomum Biflorumjack"** or **"Wan-Sao-long"** in Thai, an extraordinary herb traditionally used since ancient times in aroma therapy to make one feel refreshed and relaxed. It also relieves muscle tension. **"Wan-Sao-long"** is beneficialas an anti-biotic, and is widely used in Thai Traditional Medicine. Unfortunately, other natural remedy companies hardly use **"Wan-Sao-long"** as araw material. With the many benefits derived from **"Wan-Sao-long"**,

TONRAKYA Co.,Ltd, has utilized this herb as a basis for almost all of our products, using the latest technology to extract the active ingredients from **"Wan-Sao-long"**. These innovative methods make all our products produced under the **"AMPi"** Brand exceptional because we extract the natural benefits of **"Wan-Sao-long"** without adding or using any chemicals. As a result, the AMPii Herbal Heating Products have been created in way that is 100% natural.

AMPii Herbal Heating Products are protected from fungi, are easily heated in a microwave. It can be reused more than 60-80 times, which is economical, convenient, and environmentally friendly and suitable for present lifestyle. There are many types of products to choose from to be used on all parts of the body, eliminating the image of the old hot compress products that were both cumbersome and messy with clothes. You can easily self-massage at home to ease muscle tension and other pains. "**AMPii** brings happiness in using herbal compress balls to you and your family so that you can sense them at home and welcome the new charm of simple compressing for complete relaxation with **AMPii** anytime and anywhere."
As we believe that everyone would aim to have good and gorgeous physical and mental health, along with a lively life, **AMPii** therefore focuses on developing natural products for all human beings around the world who love and determine to take care of their health via natural approaches. Our products would yield not only medicinal benefits, but also allow you to sense the charm, the liveliness, and the difference as a result from the concept of **"FRESH and ALIVE in 5 SENSES"**.
This will be like filling or adding souls and senses to the simple natural products so that they become charming, lively, and more premium.

“ AMPii Live…Alive ”

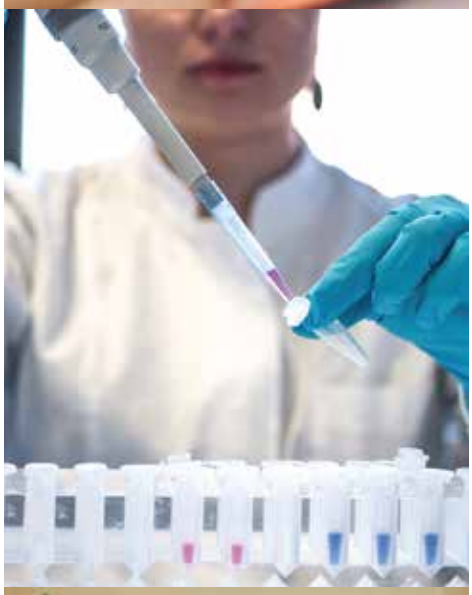
Message from CEO

Kamonrat Srisukphokin

Our company is determined to administer our work efficiently. One of the main goals of our company is to promote consumers to turn to take care of their health via natural ways. Thus we continuously focus on research ing and developing new products from Thai herbs to meet standards and have high quality by relying on the knowledge base of Thai wisdom. We expect to promote the community economy for sustainability, and aim to lift up the level of Thai herbs toward international standards so that health-loving people worldwide can also sense the true charm and benefits of Thai herbs.

On behalf of **TONRAKYA Co.,Ltd**, I would like to thank you all shareholders, customers, business partners, staff, and all relevant sectors who have been providing helpful support to our work continuously. The company's committees and administrators will always adhere to man aging the business "under the principle of good corporate governance for utmost benefits of all stakeholders."

Our Goal



To be one of the leaders
