*HPP is a cold pasteurization technology, the process start from introducing scaled product into a vessel and put into a high level of isostatic pressure (300-600PMa / 43,500-87,000psi) transmitted by water

Why Coconut Water?

A healthy drink for everyone, pure benefits from nature. A nutritionist-approved drink you can feel good about sipping on—whether you're drenched in sweat after workout, or simply sick of water

Amazing Health Benefits of Coconut Water

- Coconut water can help you lose fat**
For weight conscious people, this one is one of the most important health benefits of coconut water. Because it is very low in fat, you can drink as much as you can without worrying about ingesting a lot of fattening agents, such as milk and the like. It can also help you feel full thus, decreasing your cravings for excessive foods.
- Coconut water can help prevent diabetes**
As mentioned before, it is also very low in sugar so you're actually preventing the onset of diabetes if you drink it.
- Coconut water can aid digestion**
It has more hydrating properties than the average tap water so drinking it can certainly help your digestion well. Thus, you'll be able to absorb food nutrients better and have easier bowel time when you drink it.
- Coconut water can help fight viruses**
Flu and herpes are some of the sicknesses caused by different kinds of viruses that attack the body. Coconut water has anti-viral and anti-fungal properties that can help you steer clear from these diseases and more!
- Coconut water can help revitalize your cells and boost your metabolism**
It contains less sodium and more potassium than the average energy or sports drink that's why it is a highly recommendable substitute for these expensive and artificial products.

BENEFITS OF COCONUT WATER

- ELECTROLYTES AND HYDRATION**
Research has shown that coconut water is rich in electrolytes and can be as hydrating as an IV.
- HEART HEALTH**
Thanks to its electrolyte content, research has shown that coconut water can lower triglycerides and cholesterol, contributing to a healthy heart.
- CANCER**
According to research, cytokinins in coconut water have anticancer properties.
- MUSCLE TENSION**
According to research, coconut water can help to lower muscle tension.
- BLOOD PRESSURE**
Since the potassium in coconut water can counteract sodium, coconut water can reduce blood pressure.
- STRESS**
By lowering muscle tension, coconut water can lower stress levels and the physical consequences of stress.
